Hi! PARIS

BootCamp 2022

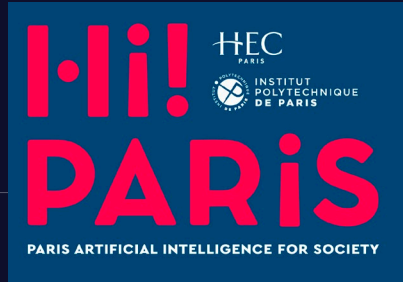

Summer preparatory course on Data Science

The course is designed for
1,000 students **entering
their Graduate studies**

Hi! PARIS is the new Center on **Data
Analytics and Artificial Intelligence** for
Science, Business and Society created by
Institut Polytechnique de Paris (IP Paris) and
HEC Paris and recently joined by Inria Saclay

BootCamp 2022

Powered by Hi! PARIS

What is it about?

The Data BootCamp was created to **bring you awareness** and a 360 overview of the use of Data Science in a business world. You have limited knowledge in Data Science or Python Programming? That's ok, it is an awareness program, structured and designed for students with **basic knowledge in Data Science** or Python programming. It will help you **put in practice Data Science** with no programming background.

What's in it for me?

- Build an overview of the **impact of Data Science in the business world** you will enter after you graduated
- Understand main **Data Science concepts**: from data transformation, Machine Learning to algorithm explicability
- Learn how to manage an **End-to-End Data Science** oriented project
- Get the chance to meet and collaborate with **students from other Top Tiers schools** and from different backgrounds
- Put **Data Science in practice** through interactive exercises
- Have first glance of **Python programming**
- Meet **Data Science experts** and **business professionals** who will walk you through their success stories

How does the data BootCamp work?

- The sessions are designed to be **"learning by doing"** methods, mixing progressive Data Science modules presentation, practices, and restitution.
- **A topic will be presented at the beginning of the one-week session**, to be delivered end-to-end by a group of students at the end of the session.

When is it?

Session Dates	
	Aug 22nd – 26th
	Distance
	From 9am to 5pm

How do I attend the Data BootCamp ?

1 Click on the following link:

LINK
↓

2 Fill-in the form and Submit
before **August 1st 6pm**

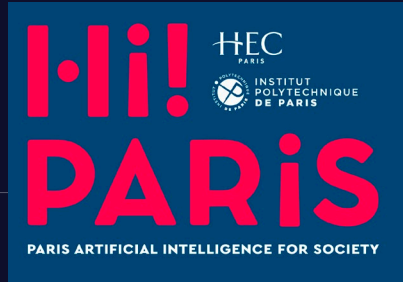

3 Receive confirmation by
August 5th 6pm*

If your subscription is accepted, please make sure to check all requirements before attending the session. Modalities will be shared with you by email beginning of August.

*The Data BootCamp is limited to only 80 participants per one-week session. Therefore, candidate selection will be "first come, first served" based with a school-based distribution once subscription are closed. Once the subscription is closed, you'll receive an email to inform you if whether or not, your candidacy is accepted.
